We are pleased to offer the following **2-hour stand- alone professional learning opportunities** during the 2017-18 school year. This professional development series is offered at **no charge** to all pre-kindergarten through twelfth-grade teachers, administrators, related service providers, paraprofessionals, and parents interested in **learning more about proactive, systematic methods** of looking for students who might require additional assistance to experience success in schools. Each session provides stand-alone information **to build knowledge, skill sets, and confidence** in developing structures and practices to support the design, implementation and evaluation of the Ci3T model of prevention.

See also: ci3t.org/pl for alternate registration and more professional learning resources.
