**Description:** Dr. Royer is offering a professional learning series, hosting 5 stand-alone sessions at Leeward Community College in Pearl City, Hawai'i. Sessions are held from 5:00-7:00 PM HST and are offered at no charge to all preK-12 educators interested in learning more about proactive, systematic methods of looking for students who might require additional assistance to experience success in school.

Information will be provided regarding systematic screening tools and how to use these data to inform tiered intervention efforts, with an emphasis on low-intensity strategies to support students whose behavior impedes academic and social success. You are encouraged to attend all five sessions; however, each session provides stand-alone information to build knowledge, skill sets, and confidence in supporting students with challenging behaviors.
