---

---

---

## Agenda

- Welcome!
- Ci3T models of prevention
  - A respectful approach to preventing and responding to challenging behavior
- A look at acting-out behavior: Timing is everything!
- Managing acting-out behavior: Seven phases
- Pathways to success: Defusing various behaviors
- Tier 3: Building a de-escalation plan
- Wrapping up: Resources

**Roles & Responsibilities**  
**Academic, Behavioral, & Social Domains**

**SAMPLE Elementary School CBT Primary (Tier 1) Plan**

| Mission Statement   | Purpose Statement   | School Wide Expectations  | Academic Expectations  | Behavioral Expectations   | Social Expectations   |
|---|---|---|--|---|---|
| The mission of Sample Elementary School is to provide a positive and safe learning environment for students, families, and school staff to engage in opportunities that promote learning, growth, and well-being. The purpose of Sample Elementary School's CBT Plan is to guide the school in developing and implementing a comprehensive system of prevention, intervention, and support for all students, staff, and families. The plan is designed to be aligned with the Kentucky Department of Education's (KDE) CBT Framework and the school's strategic plan. | The purpose of Sample Elementary School's CBT Plan is to guide the school in developing and implementing a comprehensive system of prevention, intervention, and support for all students, staff, and families. The plan is designed to be aligned with the Kentucky Department of Education's (KDE) CBT Framework and the school's strategic plan. | • All students will follow the school's rules and expectations.<br>• All students will be respectful and courteous to others.<br>• All students will be responsible and accountable for their actions.<br>• All students will be safe and secure in the school environment.<br>• All students will be healthy and well-being. | • All students will demonstrate proficiency in the core subjects of English, Math, Science, and Social Studies.<br>• All students will demonstrate proficiency in the 21st-century skills of critical thinking, problem-solving, and communication.<br>• All students will demonstrate proficiency in the 21st-century skills of digital literacy, media literacy, and financial literacy. | • All students will follow the school's rules and expectations.<br>• All students will be respectful and courteous to others.<br>• All students will be responsible and accountable for their actions.<br>• All students will be safe and secure in the school environment.<br>• All students will be healthy and well-being. | • All students will follow the school's rules and expectations.<br>• All students will be respectful and courteous to others.<br>• All students will be responsible and accountable for their actions.<br>• All students will be safe and secure in the school environment.<br>• All students will be healthy and well-being. |

---

---

---

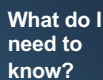

---

---

---

---

---

---

---

---

---

---

---

## A Look at Acting-Out Behavior

Timing is everything!

16

---

---

---

---

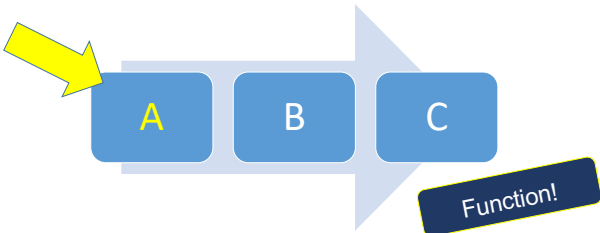

---

---

---

---

### Antecedents - Behavior - Consequences

Precorrection: Identifies predictable contexts that often result in problem behavior and provides students with supports, prompts, and reinforcement for engaging in appropriate behavior

17

---

---

---

---

---

---

---

---

### Managing Acting-Out Behaviors

- Classrooms are becoming increasingly more diverse
  - Culturally
  - Academically
  - Behaviorally
  - Social skill sets

(Lane, Wehby, & Robertson, 2008)
- Students with exceptionalities are accommodated in inclusive settings
 

(MacMillian, Gresham, & Forness, 1996)

ED  
0.5%  
EBD  
20%

---

---

21

---

---

---

---

---

---

---

---

## Stages of the Acting-Out Cycle

Colvin (1992)

- Calm
- Triggers
- Agitation
- Acceleration
- Peak
- De-escalation
- Recovery

---

---

---

---

---

---

---

22

## Managing Acting-Out Behavior

Seven Phases

---

---

---

---

---

---

---

23

## The Acting-Out Cycle

Colvin, 2004

[Overview of the Acting Out Cycle--Vanderbilt IRIS Module](#)

---

---

---

---

---

---

---

24

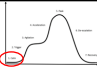

### Calm

*Overall behavior is cooperative, compliant, and desirable*

- Academically engaged
- Follows rules & expectations
- Is responsive to praise
- Initiates interactions
- Goal-directed behaviors

**Strategies:**  
Intervention is focused on proactive strategies. Focus on **instruction and positive behavior support**.

- Implement the schoolwide CIBT plan
- Vary instructional delivery
- Provide behavior-specific praise
- Implement low-intensity teacher-delivered strategies (e.g., precorrection, active supervision, opportunities to respond)
- Carefully plan instruction and implement clear routines and procedures
- Attend to the physical environment for potential problem areas

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

25

### Trigger

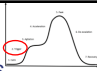

*Overall behaviors involve a series of unresolved problems*

**School-based triggers**

- Conflicts
- Changes in routine
- Peer provocations
- Pressure
- Ineffective problem solving
- Facing errors in instruction
- Facing correction procedures
- Denial of something needed

**Strategies:**  
Intervention is focused on **prevention and redirection**.

- Identify the situation where the behavior is likely to occur.
- Use precorrection to teach appropriate response.
- Rehearse the expectations, prompt or remind students as needed, provide specific praise and reinforcement.
- Work with all staff and faculty to teach and reinforce social skills.
- Group social skills, anger management, community services.
- Work with families for outside supports of nonschool-based triggers

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

26

### Agitation

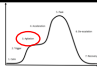

*Overall behavior is unfocused and off-task*

**Increases in behavior**

- Darting eyes
- Nonconversational language
- Busy hands
- Moving in and out of groups
- Off-task, then on-task behavior

**Strategies:**  
Intervention is focused on **reducing anxiety**.

- Show empathy
- Provide reasonable options and choices
- Allow wait time for student to decide (usually less than a minute)
- During wait time, walk away from student, attend to other students, or engage in some other task
- Involve in successful engagement (behavior momentum)

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

27

## Acceleration

*Overall behavior is teacher-engaging*

- Questioning and arguing
- Noncompliance and defiance
- Off-task behavior
- Provocation of others
- Compliance with accompanying inappropriate behaviors
- Criterion problems (getting starting)
- Whining and crying
- Avoidance and escape
- Threats, intimidation
- Destruction of property
- Verbal abuse

**Strategies:**  
Intervention is focused on **safety**.

- Remove all triggering factors
- Avoid escalating prompts
- Maintain calmness, respect, and detachment
- Approach the student in a nonthreatening manner
- Utilize non-confrontational limit-setting procedures

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

28

## Peak

*Overall behavior is out of control*

- Serious destruction of property
- Assault
- Self-abuse
- Severe tantrums
- Hyperventilation
- Running away

**Strategies:**  
Focus on **safety only!**

- Remain calm
- Crisis management
- Behavioral Emergency – Room Clear
- Safety strategies: emergency safety intervention (ESI) if there is immediate danger (document & notify)
- Learn from it... (e.g., FBA, BIP, mental health assessment)

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

29

## De-Escalation

*Overall behavior displays confusion*

- Confusion
- Reconciliation
- Withdrawal
- Denial
- Blaming others
- Responsive to directions
- Responsive to manipulative or
- Avoidance of discussion
- Avoidance of debriefing

**Strategies:**  
Intervention is focused on monitoring for re-escalation of behavior.

- Monitor for health/safety of all involved
- Avoid blaming- provide opportunity for non-judgmental discussion
- Allow cool-down time and space
- Engage in independent work- provide easy/concrete tasks

Colvin, G., & Scott, T. (2015). Managing the cycle of acting-out behavior in the classroom (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

30

## Recovery

*Overall behavior shows eagerness for busy work and reluctance to interact or discuss*

- Eagerness for independent work or activity
- Subdued behavior in group work
- Subdued behavior in class discussions
- Defensive behavior
- Avoidance of debriefing

**Strategies:**  
Intervention focuses on returning to normal activities.

- Follow through with consequences, but do not disrupt flow of instruction
- Positively reinforce any displays of appropriate behavior
- Debrief/rehearse problem solving routine

Colvin, G., & Scott, T. (2015). *Managing the cycle of acting-out behavior in the classroom* (2nd Edition). Thousand Oaks, CA: Corwin.

---

---

---

---

---

---

---

---

31

## Debriefing Session

- Facilitates transition back to task/activity ...not further negative consequence
- Goal is to increase appropriate behavior
- Focus on problem solving
- Pinpoint events that contributed to the incident
- Teach replacement behaviors
- Debriefing activities and forms

418

Ci3T

## Pathways to Success

Understanding educator-student interactions

---

---

---

---

---

---

---

---

33

### Four **Key** Strategies

1. Take an instructional approach to behavior schoolwide
2. Intervene early in the acting-out cycle
3. Learn strategies to intervene at each stage in the acting-out cycle
4. Be respectful at all times

---

---

---

---

---

---

---

34

### Defusing Off-Task Behavior

1. Assess the situation: determine "can't do" or "won't do"
  - Is it an emergency situation? If so, follow crisis procedures. If not, follow off-task defusing steps.
2. Maintain the flow of instruction
3. Recognize on-task students, making no response to off-task students
4. **Show empathy**
5. Redirect (focus on task, brief language/gestures, prompt procedures for asking for help)
6. Give time and space
7. Acknowledge compliance

---

---

---

---

---

---

---

35

### Defusing Non-Compliance and Limit Testing

- Provide one clear direction
  - "Alright everyone, return to your desks, get out your book and paper, and begin work." Kāwika does not comply.
  - "Hey Kāwika, time to return to your desk."
    - "But I can't sit at my desk because I don't have A, B, C and I need to..."
  - "I'd be happy to help you with all those things as soon as you are sitting at your desk."
- Be neutral but direct and stay with the direction
- All student requests are contingent on compliance with first step
- Follow-up with student quietly
- Continue to acknowledge other on-task students
- Acknowledge cooperation or implement consequence in a neutral manner

Scott, 2018

---

---

---

---

---

---

---

36

## Defusing Disrespectful Behavior

- Indicate in a neutral manner the action was disrespectful and continue with instruction
  - "That's what we call disrespectful, let's talk about it later."
    - "I don't see how that was disrespectful"
  - "Which is why we should discuss it after everyone masters these 2-step equations by using..."
- Do not allow disrespectful behavior to escalate your emotions or interrupt the lesson
- Personal and genuine apologies are sometimes effective for peer disrespect (e.g., restorative practice)
- If student refuses to comply, follow through with bottom line consequence

37

---

---

---

---

---

---

---

---

## Defusing Disruptive Behavior

- Recognize and respond quickly to student agitation
- Redirect
  - Clearly state the expected task first step: focus on behaviors taught
- Communicate concern privately
  - Present options – not an ultimatum
  - Allow student space and time – do not hover
  - Assist student to begin task: remind to use appropriate behavior
- Attend to other students and prepare for the worst
- Acknowledge compliance or institute standard consequence in neutral manner

Scott, 2014

38

---

---

---

---

---

---

---

---

## Defusing Provocative Behaviors

- Privately identify the behavior as a problem for the student, not you
  - "Hey, I personally don't mind that shirt, but it pretty clearly violates dress code expectations. Here are options for how to fix it, but it's up to you, you know the consequences."
    - "But my mom bought this for me!"
  - "All the more reason I'd hate for you to lose it, so which of those options..."
- Don't argue, don't show shock or offense – it's simply a violation of expectations and you are there to help
- Acknowledge cooperation
- If student refuses to comply with a solution, follow through with bottom line consequence
  - Delivered in a matter-of-fact manner as a choice the student made

39

---

---

---

---

---

---

---

---

## Defusing Aggressive Behavior

- Recognize conditions under which conflict is likely and attempt to avoid by using
  - Assigned seats
  - Independent activities
  - Teacher proximity – stay between as long as there is no physicality
- Verbal altercation = verbal intervention
  - Provide specific and concrete directions
  - Redirect / distract – get attention away from altercation
  - Separate as much as possible without placing hands on students
- Physical altercation = initiate crisis procedures
  - Call office or send runner
  - Provide clear, loud, and concrete directions to both students
  - Clear other students away to keep safe
  - Wait for assistance

40

---

---

---

---

---

---

---

---

## Tier 3

Building a de-escalation plan

41

---

---

---

---

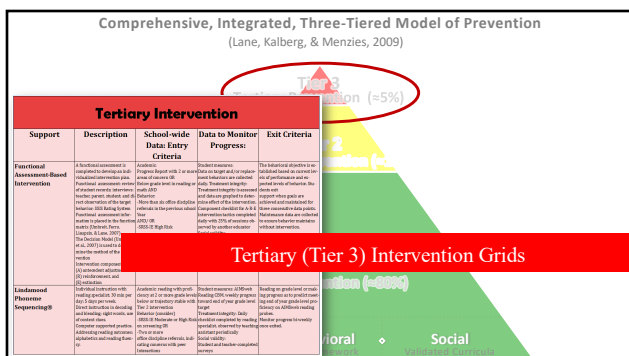

---

---

---

---

Comprehensive, Integrated, Three-Tiered Model of Prevention (Lane, Kolberg, & Menzies, 2009)

---

| Tertiary (Tier 3) Intervention Grid: For Middle and High School Students |   |   |  |   |
|--|---|---|--|---|
| Support  | Description   | School-wide Data:<br>Entry Criteria   | Data to Monitor Progress   | Exit Criteria   |
| Individualized De-escalation Plan  | Ongoing strategy involving identifying specific student characteristics for each phase of the De-escalation cycles and implementing appropriate and evidence-based adult responses to managing student acting out behavior. | One or more of the following:<br><b>Behavior:</b><br><input type="checkbox"/> SRSS-E7: High (9-21)<br><input type="checkbox"/> Office discipline referrals (ODRs) 6 or more within a grading period | Identify a target behavior for the individual student<br>Include: (a) label for the behavior, (b) definition, (c) examples, and (d) non examples<br>Set behavioral goal based on baseline performance of the behavior.<br>Direct observation of the target behavior with data points graphed for decision making.<br><br><b>Treatment Integrity:</b><br>Treatment integrity checklist<br><br><b>Social Validity:</b><br>Teacher: IRP-15<br>Student: CIRP | SRSS-E7 score: Low (0-3)<br><br>Observation data demonstrate behavior is consistently within expected level (per goal: three consecutive data points) – then transition to maintenance plan and monitor behavior during transition. |

44

---

---

---

---

---

---

## Planning

*"It is much like a map to the behavior train the student takes us on."*

*"The teachers appreciated the strategies column the most."*

*"I enjoyed creating this plan by using the "Acting Out Cycle" as it provides a clear and structured guide for any adult who may be implementing this with a student."*

*"I am more likely to implement this type of de-escalation plan compared to others because it was so easy to follow."*

*"I feel I have added another tool to my kit!"*

**TEMPLATE:**  
 Individualized De-escalation Support Plan

| Teacher<br>Teacher<br>Student | Date:<br>Grade: | Assessment: student characteristics | Strategies: specific skills required |
|-------------------------------|-----------------|-------------------------------------|--------------------------------------|
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |
|                               |                 |                                     |                                      |

The graph illustrates the 'Acting Out Cycle' with intensity on the y-axis and time on the x-axis. The curve starts at a baseline, rises through a 'Trigger' phase, enters an 'Escalation' phase, reaches a 'Peak', then descends through a 'De-escalation' phase, and finally levels off in the 'Recovery' phase.
