Implementing Ci3T Models: A Respectful Partnership

9

10

11

**Behavioral Component:
Positive Behavioral Interventions and Supports (PBIS)**

A Framework, Not a Curriculum

- Establish, clarify, and define expectations
- Teach all students the expectations, planned and implemented by all adults in the school
- Give opportunities to practice
- Reinforce students consistently, facilitate success
- Consider rules, routines, and physical arrangements
- Monitor the plan using school-wide data to identify students who need more support
- Monitor student progress

23

SAMPLE Elementary School Ci3T Primary (Tier 1) Plan		
Mission Statement	The mission of Sample Elementary School is to provide a positive and safe learning environment for students, families, and school staff to engage in opportunities that maximize students' learning potential and positive long term life choices as citizens.	
Purpose Statement	The purpose of Sample Elementary School's Ci3T plan is to fulfill the school's mission through instruction and learning experiences in academics and the arts, social and emotional development, and social behaviors that are respectful and in alignment with the family and community priorities.	
School Wide Expectations	<p>2020 - 2021</p> <p>The purpose of Sample Elementary School's Ci3T plan is to partner with families to fulfill the school's mission through in person and continued learning experiences in academics and the arts, social and emotional development, and social behaviors in alignment with family and community priorities.</p> <ol style="list-style-type: none"> 1. Be Respectful 2. Be Responsible 3. Give Best Effort <p>*see Expectation Matrix</p>	
Area I: Academics Responsibilities	Area II: Behavior Responsibilities	Area III: Social Skills Responsibilities
Students:	Students:	Students:
Family and Staff:	Family and Staff:	Family and Staff:

24

Area II: Academics Responsibilities

Faculty and Staff:

- Teach core programs according to district and state standards with integrity.
- Use proactive evidence-based strategies to support students' active engagement.

Remote Learning

- Use proactive evidence-based strategies to support students' active engagement.
- Maintain online classroom platforms with learning activities connected to the weekly learning outcomes.
- Communicate at least weekly with families and students.

25

Area II: Behavior Responsibilities

Faculty and Staff:

Implement Positive Behavioral Interventions and Supports (PBIS) with integrity.

- Teach all setting Expectations within the first week of school and reteach Expectations (monthly).
- Display and model school-wide expectations in classrooms and other key settings.

Remote Learning

- Teach Expectations for remote learning.
- Set clear Expectations for your students' learning times allowing for flexibility for unique family needs.

26

Area II: Social Responsibilities

Faculty and Staff:

Teach schoolwide social skills/ character education curricula with integrity.

- Teach daily Second Step® lessons (link to grade level instructional schedules)
- Seek ways to engage parents as partners in the school program

Remote Learning

- Begin each lesson with a connection to the social skills needed to fully engage in the lesson.
- Utilize online Second Step® resources to continue regular social skill lessons with asynchronous activities as well as synchronous lessons.

27

Ci3T Primary Plan: Procedures for Teaching

Ci3T Primary Plan: Procedures for Reinforcing

Ci3T Primary Plan: Procedures for Monitoring

Area I: Academics Responsibilities
Faculty and Staff: Teach core programs according to district and state standards with fidelity.
• Differentiate instruction to meet the needs of all students.
• Provide opportunities for students to demonstrate and apply learning.

Area II: Behavior Responsibilities
Faculty and Staff: Implement the Positive Behavior Expectations (PBE) program.
• Establish a positive behavior environment.
• Display and model school-wide expectations in classrooms and other by settings.
• Be consistent with expectations.
• Provide specific praise and feedback.

Area III: Social Skills Responsibilities
Faculty and Staff: Teach social skills.
• One 20 min lesson every other week co-taught by teacher and counselor.
• Grades 1-5.
• One 20 min lesson per week teacher lead.
• One 45 min lesson every other week co-taught by teacher and counselor.
• One appendix for specific lessons for middle school.

Developing a Schoolwide Framework to Prevent and Manage Learning and Behavior Problems

Virtual Learning Incentives

FREE Incentives:

- Stay after on ZOOM with a friend for a chat
- Virtual lunch with teacher, principal, or parent (check with that staff member offering them up of course)
- Teacher wears stickers or has a sign with the student's name
- Dress up ZOOM day (hats, PJs, costumes, etc.)
- Virtual Greeting Cards (sent via email)
- Show & Tell Time (or some kind of star student spotlight time)

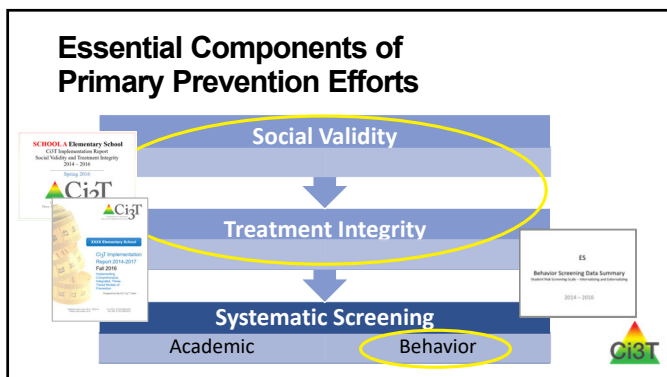

Personalized stickers in See Saw (2nd grade has been using this)

Virtual Class Reinforcement Menu

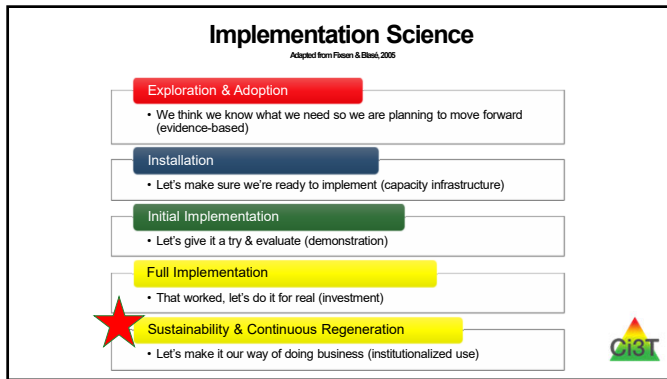

5 Tickets Show & Tell Hat Day	20 Tickets Legos Art Time with Teachers
10 Tickets Pick a Go Noodle Read Aloud to the class	15 Tickets Lunch with Teachers PJ Day
15 Tickets Lunch with Teachers PJ Day	30 Tickets Exercise with Teachers Music with Teachers

Adapted and shared with permission from a district partner

Systematic Screening Tools: Universal Behavior Screeners

Tool Name	Overview
Behavior Assessment System for Educators (BASE) Edition: Behavioral and Emotional Screening System (BESS) (2010), Copyright © Reynolds, 2010. Available from Behavioral Assessment System for Educators (BASE)	A measure of behavioral and emotional functioning. A valid scale score is computed using six subtests: Behavioral and emotional risk, understanding risk, internalizing risk, adaptive skills risk, self-regulation risk, and personal adjustment risk. Scores provide information on the three major school-related outcomes: progress and social relationships. This screening tool is used with students in grades preschool-12. Subtests are completed and scored and reported on a 100-point scale. Screening time is approximately 10-15 minutes per class. Sample reports are available on the website. Completed by: teacher/educator, parent, students. Frequency: annually, 10 minutes. (BASE-32, 2010, BASE-32, data management system). A measure to screen students for emotional and behavioral concerns. The measure is used to indicate the level of risk for an emotional disorder. Education and the school is planning how to respond, offer services or monitoring, additional assessment, or based on individual reports. This tool involves a 10-item rating form and decision support system. The school personnel must administer the screening for each student. Scores place students either at low or not at risk. Completed by: teacher/educator. Frequency: annually, 10-15 minutes for the complete kit. A measure to screen students for emotional and behavioral concerns. The measure is used to indicate the level of risk for an emotional disorder. Education and the school is planning how to respond, offer services or monitoring, additional assessment, or based on individual reports. This screening tool involves a 10-item rating form and decision support system. The school personnel must administer the screening for each student. Scores place students either at low or not at risk.
Emotional and Behavioral Screening (EBS) Copyright © Fagan, 2010. Available from Emotional and Behavioral Screening (EBS)	This tool involves a 10-item rating form and decision support system. The school personnel must administer the screening for each student. Scores place students either at low or not at risk. Completed by: teacher/educator. Frequency: annually, 10-15 minutes for the complete kit. A measure to screen students for emotional and behavioral concerns. The measure is used to indicate the level of risk for an emotional disorder. Education and the school is planning how to respond, offer services or monitoring, additional assessment, or based on individual reports. This screening tool involves a 10-item rating form and decision support system. The school personnel must administer the screening for each student. Scores place students either at low or not at risk.
Social, Academic, and Emotional Behavior Risk Screeners (SAEBRS) (Kaiser et al., 2011). Available from Social, Academic, and Emotional Behavior Risk Screeners (SAEBRS) and Teacher's Guide	A measure of social, academic, and emotional risk. A valid scale score is computed using six subtests: Academic skills, social skills, self-regulation, internalizing risk, adaptive skills, and personal adjustment risk. Scores provide information on the three major school-related outcomes: progress and social relationships. This screening tool is used with students in grades preschool-12. Subtests are completed and scored and reported on a 100-point scale. Screening time is approximately 10-15 minutes per class. Sample reports are available on the website.

41

Considerations

If social validity is lacking, even psychometrically strong tools are likely to remain unused by educators.

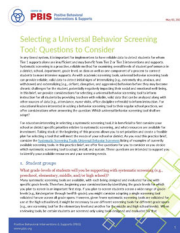

42

Psychometric Properties of Behavior Screening Tools

43

Selecting a Universal Behavior Screening Tool: Questions to Consider

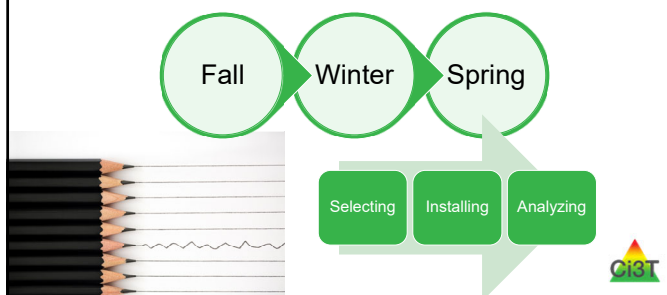

Guiding Questions around

- Student groups
- Behaviors of interest
- Cost
- Time and expertise
- Person providing information

Screening Coordinator Training Manual

SRSS-IE Installation Resources

For more information about searching and conducting systematic screening efforts with the SRSS-IE, we make you to access the Screening Coordinator Training Manual a Guide for installing the SRSS-IE in your school or district available as a downloadable PDF or as a presentation, as well as best accompanying screening protocols.

- Systematic Screening Setup up to Screen in Your District or School
- Systematic Screening Data and Reporting Protocol

After screening, CSSS Leadership Teams may wish to create screening reports to facilitate use of data and for sharing information with stakeholders in aggregate format. The below PowerPoint template provides a customizable structure to assist in reporting these data.

- SRSS-IE Screening Report Template

We also encourage you to read the following articles to learn more about how to use the SRSS-IE at elementary as well as middle and high schools.

What questions should you ask yourself when installing a universal behavior screening tool? This document provides a list of guiding questions to consider when installing a universal behavior screening tool. The questions are organized into five categories: Setting Up Screening Structures, Providing Professional Learning, Before your Screening Window Opens, During your Screening Window, and After your Screening Window. The questions are designed to help you think through the process of installing a universal behavior screening tool and to ensure that you are addressing all the key components of the process.

Support	Description	Schoolwide Data: Entry Criteria	Data to Monitor Progress:	Exit Criteria
READ 180 (Stage C) Reading Intervention	Students participate in a 50 min reading instructional block during their study hall period. Students meet in the computer lab for participation in the online portion 20 min daily. Instruction is relevant to high school students. Students use a progress management system to monitor and track their own progress. Instruction is taught by special education teachers and general education teachers with training in the READ 180 Curriculum.	(1) Students in grades 9 – 12. (2) Reading performance basic or below basic on state assessment (but above 4 th grade reading level). (3) SRSS risk scores in the moderate range (4 – 8).	<u>Student Measures:</u> Meeting individual READ 180 reading goals: (1) Progress Monitoring with Scholastic Reading Inventory (2) Writing Assessments (3) formative assessments (vocabulary, comprehension and spelling) (4) Curriculum-based Assessments (5) Attendance in class <u>Treatment Integrity:</u> Teachers monitor performance and attendance in class. Completion of weekly checklists for activities completed. <u>Social Validity:</u> Students and teachers complete surveys.	Students meet instructional reading goals. SRSS score in the low risk category (0 – 3) on the next screening time point.
Lane, K. L., Oakes, W. P., Menzies, H. M., Oyer, J., & Jenkins, A. (2013). Working within the context of three-tiered models of prevention: Using school wide data to identify high school students for targeted supports. <i>Journal of Applied School Psychology</i> , 29, 203-229.				

109

Support	Description	Schoolwide Data: Entry Criteria	Data to Monitor Progress:	Exit Criteria
Mentoring Program (Sophomores/Juniors/Seniors)	Focus is on academic achievement, character development, problem-solving skills, improving self-esteem, relationships with adults and peers, and school attendance. Volunteer teachers serve as mentors; meeting weekly (30 – 60 min) with students during the school day.	(1) 10th/11 th / 12 th graders (2) Behavior: SRSS: High (9-21) or Moderate (4-8) by either 2nd or 7th period teacher ODR ≥ 2 Absences ≥ 5 days in one grading period (3) Academic: GPA ≤ 2.75	<u>Student Measures:</u> (1) Increase of GPA at mid-term and semester report cards. (2) Decrease of ODR monitored weekly. (3) Reduced absences (fewer than one per quarter) <u>Treatment Integrity:</u> Mentors complete weekly mentoring checklists to report meeting time and activities. <u>Social Validity:</u> Pre and post surveys for students and mentors.	Yearlong support Students who no longer meet criteria next fall Seniors: graduation
Lane, K. L., Oakes, W. P., Menzies, H. M., Oyer, J., & Jenkins, A. (2013). Working within the context of three-tiered models of prevention: Using school wide data to identify high school students for targeted supports. <i>Journal of Applied School Psychology</i> , 29, 203-229.				

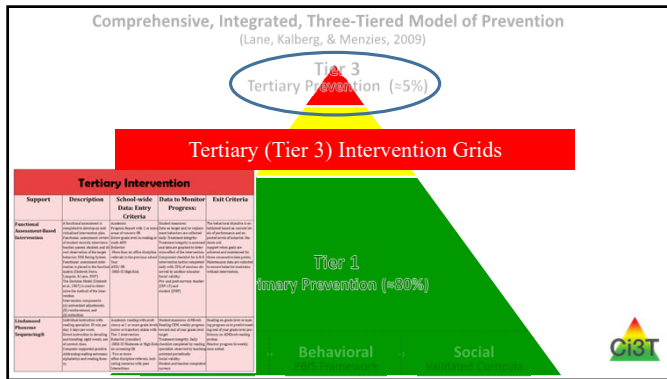

110

Support	Description	Schoolwide Data: Entry Criteria	Data to Monitor Progress:	Exit Criteria
Targeted Algebra II Study Hall	Direct, targeted instruction of Algebra II learning targets by math teachers. Time will be used to re-teach concepts, provide one-on-one or small group instruction and offer greater supports for students struggling to pass the graduation requirement course. 50 min per day until exit criteria is met.	(1) 12th graders (2) Algebra II grade drops below a 75 at any point in the semester (3) Have study hall time available and permission of 5th period teacher (4) Self-selecting to engage in study hall	<u>Student Measures:</u> Algebra II classroom grades Daily class average if grade is ≤ 75 <u>Treatment Integrity:</u> Daily monitoring of the lessons covered and student attendance <u>Social Validity:</u> Pre and Post Student Surveys	Algebra II Grade increases to satisfactory level (above 75%).
Lane, K. L., Oakes, W. P., Menzies, H. M., Oyer, J., & Jenkins, A. (2013). Working within the context of three-tiered models of prevention: Using school wide data to identify high school students for targeted supports. <i>Journal of Applied School Psychology</i> , 29, 203-229.				

111

112

SAMPLE TERTIARY (Tier 3) INTERVENTION GRID

Support	Description	Schoolwide Data Entry Criteria	Data to Monitor Progress	Exit Criteria
Functional Assessment-Based Intervention	Individualized interventions developed by the behavior specialist and PBS team	Students who: Behavior -scored in the high risk category on the Student Risk Screening Scale (SRSS), or -scored in the clinical range on one following Strengths and Difficulties (SDQ) subscales: Emotional Symptoms, Conduct Problems, Hyperactivity, or Prosocial Behavior, -earned more than 5 office discipline referrals (ODR) for major events during a grading period OR Academic identified at highest risk for school failure: recommended for retention; or scored far below basic on state-wide or district-wide assessments	Data will be collected on both the (a) target (problem) behavior and (b) replacement (desirable) behavior identified by the team on an on-going basis. Weekly teacher report on academic status ODR data collected weekly Treatment Integrity Social Validity	The function-based intervention will be faded once a functional relation is demonstrated using a validated single case methodology design (e.g., withdrawal design) and the behavioral objectives specified in the plan are met.
