How to register for an account on Ci3T.org

You will briefly leave ci3t.org to review an informational letter and answer demographic questions—then return to finish creating your account.

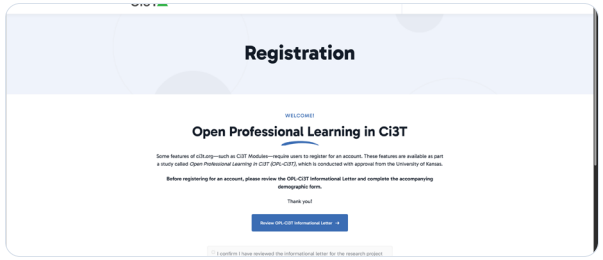

1 Open the login page

At ci3t.org, choose Professional Learning, then Login.

2 Choose Register an Account

In the login window, select Register an Account on the right.

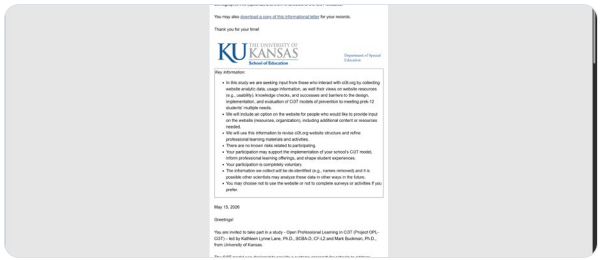

3 Open the informational letter

Select Review OPL-Ci3T Informational Letter. It opens in a new tab.

IMPORTANT **The Informational Letter and survey do not create your account**

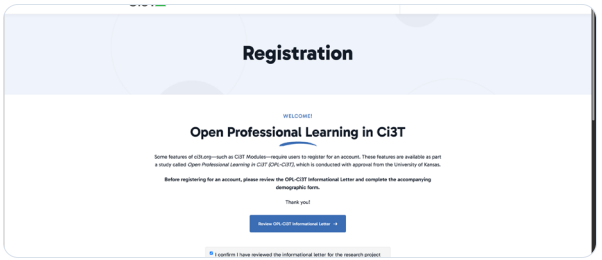

After the survey, return to the original Ci3T Registration tab.

Keep this tab open: **Ci3T Registration** ↔ Close when finished: **Letter + survey**

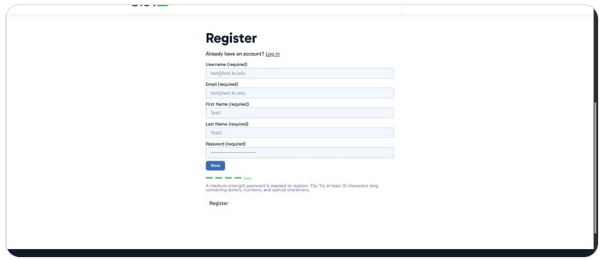

4 Review the letter and survey

In the new tab, read the letter and continue through the brief demographic survey.

5 Return and confirm

Close only the survey tab. Back on Ci3T.org, check “I confirm…” to reveal the registration form.

6 Create your account

Enter your details and click Register. Using your email as your username is easiest to remember.

If you accidentally close both tabs, return to ci3t.org → Professional Learning → Login → Register an Account.
